

Login to Digital Exam – Examiner/internal co-examiner

Login to Digital Exam via www.digitaleksamen.aau.dk using your AAU-mail and corresponding password.

If you forgot your password, please contact AAU IT Support: 9940 2020.

Change the language of the system to English in the upper right corner.

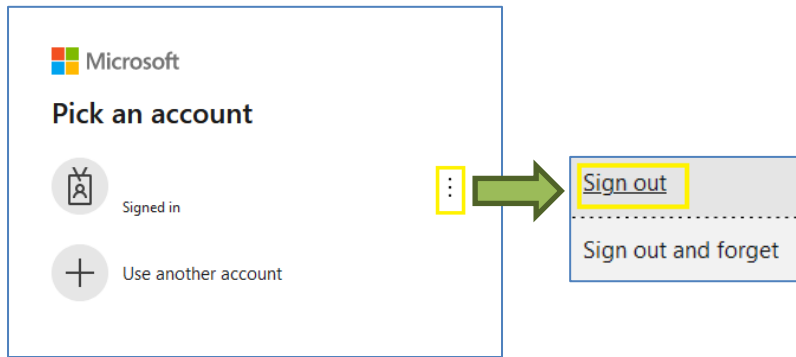

Choose **Log in as assessor**, and afterwards **Login using AAU Login** [Examiner/Internal co-examiner]:

The diagram illustrates the login process flow. On the left, a screenshot of the 'Digital Exam' page for Aalborg Universitet is shown. The 'Log in as assessor' link is highlighted with a yellow box. A large green arrow points from this link to the right, where a screenshot of the 'Login choice' page is shown. In the 'Login choice' page, the 'Login using AAU Login' option is highlighted with a yellow box, and the 'Examiner / Internal co-examiner' button is also highlighted with a yellow box. Below this, the 'Login using username/password' and 'Login using Nem ID' options are visible, both with 'Co-examiner' buttons.

If you experience errors from Digital Exam during this process, the reason might be that you are already signed in to Microsoft but with a different account than your AAU-account. This will not provide you with access to Digital Exam.

The solution to this is to use this link: <https://login.microsoftonline.com>

Start by signing out from the "wrong" account:

Then use the link again: <https://login.microsoftonline.com> and either choose your AAU-account from the list or add it by clicking "Use another account":
